

## Want to plant trees on your land?

If you have thought about planting trees on your land, we are here to help!

We can work with you to set up and deliver your tree planting project within the Humber area. There is funding available where, on meeting the criteria, there is no cost to yourself. The funding would cover the sourcing and supply of the trees and shelters, labour and two years aftercare. Plus we would arrange all of this for you!

Our volunteer groups are led by experienced project officers and we ensure every tree planted is done to an excellent standard. This is reflected in their survival rates after two years!

Unlike contractors, our aim isn't profit but the positive changes we see in our volunteers and the environment. We want these projects to succeed as much as you do!

Please get in touch with our Woodland Creation Officer (details overleaf) if you are interested.

Connecting people  
and green spaces

## Who are The Conservation Volunteers and why do we plant trees?

**We are TCV, the community volunteering charity:**

**Our vision:** to create healthier, happier communities for everyone.

**Our mission:** to connect people and green spaces to deliver lasting outcomes for both.

**Our pledge:** to plant 5 million trees working with volunteers and communities by 2025.

**Tree planting** is at the forefront of tackling global environmental pressures such as climate change and habitat loss. Increasing urban woodland cover has multiple benefits for communities from regulating air temperature and quality through to reducing flood risk and benefiting mental health.

*We work with HEYwoods and the Community Forest Trust to deliver tree planting across the region.*

## Joining in

TCV is a major partner in planting tens of thousands of trees every year throughout the Humber area (Hull, North Lincolnshire, and East Yorkshire).

Local communities are the focus of these projects. If you are looking to boost your self-esteem, physical health or to learn something new whilst feeling part of something positive, then we are here for you!

Volunteer to plant trees in the winter and maintain them in the summer.

And there are lots of other conservation tasks our volunteers can get involved with to improve the natural environment and help to make nature accessible to all.

**Please get in touch if you would like to become a part of our volunteering group.**

## Already part of a community group?

From religious congregations to 'friends of' groups, sports clubs or scouts; if you are part of a community group of any age, size, or focus and want to get outside and contribute, we can help you do it.

Please get in touch using the contact details overleaf and we can work together to arrange an event.

*Let's make our local areas greener and bring communities together!*
